Meeting Notes System

Setup Guide for the Whole Team

This guide sets up an automatic meeting notes system for all Pollity team meetings. No one types notes manually. Google Meet records and transcribes everything. A shared Drive folder keeps all notes in one place, accessible to the whole team via your @pollity.in Google Workspace accounts.

For	All Pollity team members
Accounts	@pollity.in Google Workspace
Setup time	15 minutes (admin) + 2 minutes (each member)
Date	March 2026

Contents

Weekly Meeting Schedule

Day	Meeting	Focus
Monday	All-Team Meeting	SNVC pitch preparation, class deliverables, weekly priorities
Tuesday	SNVC Class	UChicago Booth class session (notes for reference)
Thursday	Product Meeting	MVP build, technical decisions, sprint review
Friday	General Team Meeting	Weekly wrap-up, blockers, next week planning

Goal: After every meeting, a summary with decisions and action items is automatically available in the shared Drive folder within 5 minutes — with zero manual typing.

Part A — Admin Setup (Piyush Only, Do Once)

You need admin access to the Pollity Google Workspace. Log in with your admin @pollity.in account for these steps.

Step 1 — Enable Transcripts in Google Workspace Admin

1. Go to admin.google.com
2. Sign in with your @pollity.in admin account
3. Left sidebar: **Apps** → **Google Workspace** → **Google Meet**
4. Click **Meet video settings**
5. Find **Recording** → toggle ON
6. Find **Transcripts** → toggle ON
7. Click **Save**

Takes effect within a few minutes for all @pollity.in accounts.

Step 2 — Create the Shared Drive Folder Structure

1. Go to drive.google.com (signed in as @pollity.in)
2. Click **New** → **Folder** → name it Pollity
3. Inside Pollity, create a folder named Meetings
4. Inside Meetings, create four subfolders:
 - Monday - SNVC Team
 - Tuesday - SNVC Class
 - Thursday - Product
 - Friday - General Team
5. Right-click the Pollity folder → **Share** → add all @pollity.in team email addresses with **Editor** access

Step 3 — Create a Meeting Notes Template Doc

1. Inside the Meetings folder, create a new Google Doc
2. Name it **_TEMPLATE - Meeting Notes**
3. Paste the template from Section 4 of this document into it
4. This is the master template — do not delete it

Part B — Every Team Member (Do Once, 2 Minutes)

Step 4 — Check You Have Access

1. Sign in to Google with your @pollity.in account
2. Go to drive.google.com
3. Under **Shared with me** or **My Drive**, confirm you can see the Pollity/Meetings folder
4. If you cannot see it, ask Piyush to re-share

Step 5 — Bookmark the Meetings Folder

1. Open the Pollity/Meetings folder in Drive
2. In your browser, bookmark this page as **Pollity Meetings**
3. This is where all notes will live after every meeting

Part C — What To Do Each Meeting (Every Week)

Before the Meeting Starts (30 seconds)

1. Open the `_TEMPLATE - Meeting Notes` doc
2. File → **Make a copy**
3. Rename it: `YYYY-MM-DD [Meeting Type]`
Example: `2026-03-30 Monday SNVC Team`
4. Move the copy into the correct subfolder (Monday / Thursday / etc.)
5. Share the doc link in the team WhatsApp group so everyone can follow along

At the Start of the Call (30 seconds)

1. Start Google Meet as usual
2. Bottom right corner → click the **Activities** icon (looks like a star or three shapes)
3. Click **Transcripts** → **Start Transcript**
4. A notification appears: *“This call is being transcribed”* — everyone sees it

One person only needs to start the transcript (usually whoever creates the Meet link). Everyone in the call is captured automatically.

During the Meeting

Do not type detailed notes. Just jot down:

- Key decisions (bullet points only)
- Action items as they come up: *who + what + by when*

The transcript captures everything else verbatim.

After the Meeting (5 minutes total)

1. Google auto-saves the transcript to the **meeting organiser's** Drive under **Meet Recordings**
2. Move the transcript file into the correct **Pollity/Meetings** subfolder — same folder as the notes doc
3. Open gemini.google.com (free, use your `@pollity.in` account)
4. Paste the transcript text and use the prompt in Section 4.4
5. Copy Gemini's output into the meeting notes doc under the **AI Summary** section
6. Change the doc status to **Final**
7. Post the doc link in the team WhatsApp group

Templates and Prompts

Meeting Notes Doc Template

Copy this into the `_TEMPLATE - Meeting Notes` Google Doc:

```
POLLITY.IN - MEETING NOTES
=====
Date:           [YYYY-MM-DD]
Meeting Type:   [Monday SNVC Team / Tuesday SNVC Class /
                Thursday Product / Friday General Team]
Attendees:      [Names]
Status:         Draft / Final

AGENDA
-----
1.
2.
3.

KEY DECISIONS
-----

Gemini Prompt (Copy-Paste After Every Meeting)

After the meeting, open gemini.google.com, paste the transcript, and use this prompt:

“You are summarising a meeting for a startup called Pollity.in, which builds governance software for elected representatives in India. Read the following meeting transcript and produce:

- A 3–5 sentence summary of what was discussed*
- A bullet list of key decisions made*
- A table of action items with columns: Item, Owner, Due Date*
- Any blockers or open questions that need follow-up*

Be concise. Use plain English. Do not include filler or pleasantries.”

File Naming Convention

Always name files as: YYYY-MM-DD [Meeting Type]

Example filename	Meaning
2026-03-30 Monday SNVC Team	Monday all-team, 30 March 2026
2026-04-01 Tuesday SNVC Class	SNVC class session, 1 April 2026
2026-04-02 Thursday Product	Product meeting, 2 April 2026
2026-04-03 Friday General Team	Friday wrap-up, 3 April 2026

If Google Workspace Transcripts Are Not Available

If your Workspace plan does not include Meet transcripts (you will know because the Transcripts option will not appear in Activities), use **Otter.ai** instead. It is free.

Otter.ai Free Plan: 300 minutes of transcription per month. Your 4 weekly meetings average 60–90 minutes total — well within the free limit.

Setting Up Otter.ai

1. Go to otter.ai → Sign up with your @pollity.in Google account
2. Grant calendar access so Otter can see your Google Meet links
3. In Otter settings → enable **Auto-join meetings** — Otter will automatically join every Google Meet on your calendar and transcribe it
4. After each meeting, Otter emails you the transcript and a basic summary
5. Share the Otter link in the Drive folder alongside the notes doc

The rest of the process (Gemini summary, Drive folder, naming convention) is identical to Sections 3 and 4.

Quick Reference Card

Cut this out and pin it somewhere visible.

Pollity Meeting Checklist

Before the call:

- ☐ Make a copy of _TEMPLATE in the right folder
- ☐ Rename it: YYYY-MM-DD [Meeting Type]
- ☐ Share the doc link in WhatsApp

At the start of the call:

- ☐ Activities → Transcripts → Start Transcript

During the call:

- ☐ Note decisions and action items only (who + what + when)

After the call (5 min):

- ☐ Move transcript from Meet Recordings to the right subfolder
- ☐ Paste transcript into Gemini with the standard prompt
- ☐ Copy AI summary into the notes doc
- ☐ Mark doc status: **Final**
- ☐ Post doc link in team WhatsApp

Drive folder: My Drive / Pollity / Meetings

Gemini: gemini.google.com
